AUTO MAXIMA SDN BHD COMPANY PROFILE

About Us

Auto Maxima Sdn Bhd prides itself as a go-to Electric & Hybrid Vehicle (EHV) parts and tools supplier. Stemming from its team core belief in alternative fuel sources is the way forward for the auto industry, AutoMaxima has been actively establishing itself as a reliable sourcing platform for EHV.

Driven by the global shift towards sustainability, governments worldwide are prioritizing policies that incentivize the adoption of EHV's.

AutoMaxima understands the critical importance of these technologies in shaping the automotive industry's future, and we are dedicated to supporting our customers with the latest innovations and top-notch service.

AutoMaxima offers a selection of essential tools and safety equipment tailored specifically for EHV's, including insulated tools, fire blankets, safety kits, and more. This ensures that our customers have everything necessary to safely maintain, repair, and operate EHV's with efficiency and peace of mind.

Mission

To lead the transition to sustainable mobility by providing superior Electric and Hybrid Vehicle parts and tools that promote efficiency, safety, and environmental stewardship.

Vision

To be the preferred partner in the global automotive industry, driving innovation and sustainability through our commitment to excellence and customer satisfaction.

Brands Under Auto Maxima

AutoMaxima is proud to partner with a variety of distinguished brands that share our vision for a sustainable automotive future. As the distributor in Malaysia, we take pride in representing these renowned partners.

Whirlpower

Whirlpower is a reputed manufacturer of hand tools for the construction, machinery and automotive industry. With over 30 years experience in designing and producing quality finished products, Whirlpower continues to innovate in the field of insulated tools, ensuring safety and reliability for professionals worldwide.

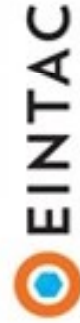

Jiangxi Suihua Fiberglass Co., Ltd.

Suihua is dedicated to delivering superior quality products that is compliant to various global standards in fire safety and protection. With over 15 years of expertise in the fiberglass industry, Suihua has established itself as a top leading manufacturer and exporter in China, specializing in the production of fire protection products such as Fire Blankets, Fire Pit Mats, Fireproof Cloaks, Welding Blankets, and more.

Beijing LSJ Technology Development Co., Ltd.

Beijing LSJ Technology Development Co., Ltd. is a national high-tech enterprise integrating R&D, production, and sales. It is dedicated to offering industrial products and solutions worldwide, leveraging infrared thermal imaging technology. The developed products and solutions find extensive applications in diverse fields such as power maintenance and repair, automotive manufacturing, Military and National Security interest and more.

EINTAC

EINTAC has been serving and supporting the Electric & Hybrid Vehicle (EHV) market since 2016. Over the years, EINTAC has become a trusted, reliable partner and source of knowledge, information and equipment for many clients. It offers a wide range of products which include the basic PPE and safety equipment required to work safely on EHVs.

BRIDGEHILL®
WE SIMPLY BLOCK FIRE

Bridgehill

As a leading provider of advanced fire safety solutions, Bridgehill offers innovative fire blankets that allow for the quick and safe isolation of fires, from car fires to house fires and wildfires.

Whirlpower

Ultimate Safety with Whirlpower's Insulated Tool

Insulated tools provide extra protection against hazardous and unpredictable situations. High-quality insulated hand tools are engineered to protect you from electric shock and reduce the risk of arc faults caused by short circuits.

Before working on the electrically live equipment, please ensure to have properly insulated tools that are reliable. Whirlpower's VDE 1000V insulated tool is the answer to the strict market requirements. Each product in this section is individually tested in water at 10,000V and is subjected to 6 test stages:

- Electrical Test
- Cold Impact Resistance
- Penetration Test
- Flammability Test
- Insulation Adhesion Test
- 100% Inspection Before Shipment

Comprehensive Range of Insulated Tools

Whirlpower offers a wide selection of insulated tools to meet all your electrical work needs, including:

- Insulated Screwdrivers
- Insulated Nutspinners
- Insulated Cable Cutters
- Insulated Water Pump Pliers
- Insulated T Bend Drivers
- Insulated Adjustable Wrenches
- Insulated Extension Bars
- Insulated Socket
- And More!

whirlpower.

The Original.

Complete Tool Sets Available

Our insulated tools are also available in comprehensive sets or as individual pieces, providing a complete solution for your toolkit. These sets include a variety of tools to ensure you are equipped for any task.

Comfort and Ergonomics

Safety goes hand in hand with comfort. Whirlpower's two components' ergonomic handle, featuring a distinct red and yellow colour combination for easy identification, is the result of significant investment in research, product development, and testing.

BeiJing LSJ Handheld Thermal Imaging Camera

A thermal imaging camera can detect and visualize heat anomalies that could indicate a range of potential issues, from equipment malfunctions to security threats. By doing so, it plays an invaluable role in preventive maintenance, proactive troubleshooting, and efficient resource management.

Infrared thermal imaging cameras are widely used in many fields such as medical, public security, fire protection, archaeology, transportation, agriculture and geology. It is an ideal choice for electricians and maintenance technicians to quickly locate problem areas.

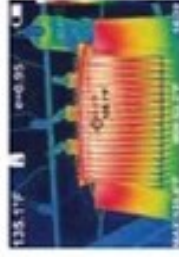

Listed below are some of the many models available.

E100

E110/E120/E160

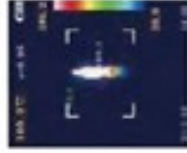

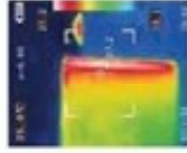

Model	E100		
Display screen	2.4" color screen		
Color palette	Rainbow, iron oxide red, cold color, white hot, black hot		
Measuring range	-20°C~+300°C(-4°F~1022°F)		
Accuracy	32°C/32%		
Specifications			
Battery type	4 alkaline AA batteries	Product size	212 x 95 x 52mm
Work temperature	-5°C~+40°C	Product weight	320g

Model	E120	E110	E160
Display screen	2.8" TFT display screen	2.8" TFT display screen	2.8" TFT display screen
Color palette	Rainbow, iron oxide red, cold color, white hot, black hot		
Measuring range	-20°C~+550°C(-4°F~1022°F)		
Accuracy	-15°C~550°C 32°C~32%; -20°C~15°C 34°C		
Specifications			
Battery type	Built-in 18650 battery	Product size	96 X 72 X 226mm
Battery capacity	2000mAh	Product weight	375g
Work temperature	0°C to +45°C(32°F to 113°F)	Working time	2-3 hours

E310

Model	E310		E3256
Display screen	2.8" full angle TFT display screen	3.5" full angle TFT display screen	
Color palette	Rainbow, iron, cold color, white hot, black hot		
Measuring range	-20°C~+550°C(-4°F~1022°F)		
Accuracy	32°C or 32%		
Specifications			
Battery type	Built-in Lithium battery	Product size	96 X 72 X 226mm
Battery capacity	2000mAh	Product weight	375g
Work temperature	0°C to +45°C (32°F to 113°F)		Working time
			2-3 hours

E320

Model	E320		
Display screen	3.2" full angle TFT display screen		
Color palette	Rainbow, iron oxide red, cold color, white hot, black hot		
Measuring range	-20°C~+550°C(-4°F~1022°F)		
Accuracy	-15°C~550°C(32°C/32%); -20°C~15°C(34°C)		
Specifications			
Battery type	Built-in 18650 battery	Storage temperature	-20°C~+60°C
Battery capacity	2200mAh	Relative humidity	10% to 85% RH (non-condensing)
Work temperature	-10°C~50°C	Working time	2~3 hours
